

Keep the flame burning which I have kindled. It may seem small to you, but one single little flame, when kept burning, can be the means to illuminate a whole town; and one day or the other, lamps which are kindled with this small fire, will illuminate thousands are now in darkness. All winds of the earth will try to extinguish it, but they will not be able to do so, if you watch faithfully. It is more likely that they will burn still higher. Watch and Pray!
